

Additional TEAMINFORMATION

Red Bull Ring Classics

June 09 – 11, 2023 @RedBullRing

Please find below important additions to the first Teaminformation!

Paddock Entry Procedure for teams arriving with car / camper + trailer with racecar

General: Private cars and trailers are NOT allowed to stay in the paddock. They may only enter to bring in the racecar + equipment. Why?

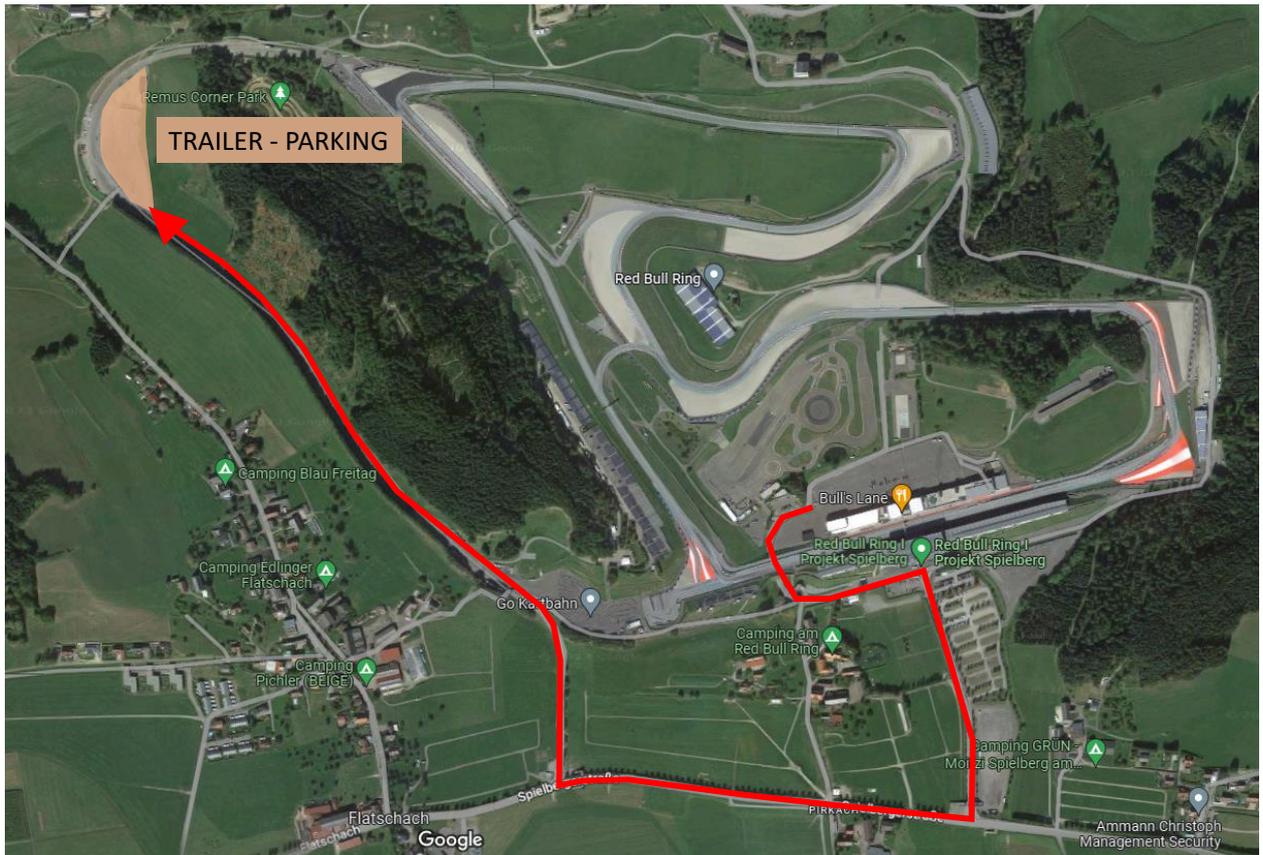

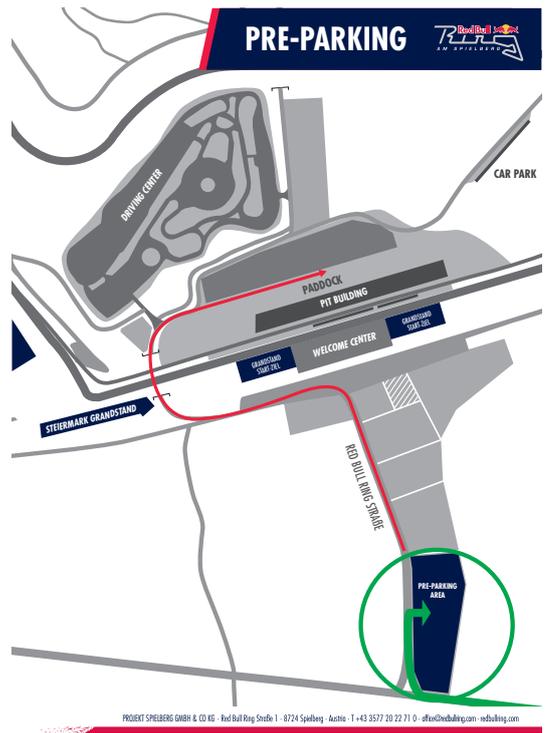

→ We expect so many participants and cars at the Red Bull Ring Classics next week and the space at Red Bull Ring is very limited compared to e.g., Hockenheim or Assen. We want to inform you that we will give paddock entry permissions for those teams arriving with private cars, car-trailers, campers without concrete racing purposes etc. These entry permissions are only valid for a certain duration. This will only take place on Thursday for Set-Up. For Sunday after the races for dismantling, this procedure is not mandatory. You will then have free access after confirmation of Organizer and Race Control!

The following procedure is mandatory:

Those participants, who e.g. carry their race car in a trailer, (but don't need it anymore as soon as everything is set up in the paddock), will get an entry ticket at the access to the Red Bull Ring (Pre Parking Area – detailed plan on next page). 150€ have to be deposited in cash and the entry ticket is valid for 2 hours --> Afterwards the participants drive to gate 1 into the paddock, unload the car, etc. --> When everything is set up, the participants drive out again, give back the ticket and get the money back --> The trailers, etc. will be brought to the Westschleife by the teams themselves (plan on next page). Cars can be parked at our dedicated team parking areas at the main entrance area. For campers we have some places left at a dedicated area in the infield. First come first serve on Thursday next week. To be safe, we recommend to contact TVB Murtal: <https://www.murtal.at/steiermark> for a campsite near / at the track.

→ This is the pylon showing the pre-parking area.
