—> Please read it.

Respect of noise limits

On the track, the maximum sound level permitted is **103 dB**, measured at 15m from the centreline of the track.

Pollution prevention - stains on the floor

The preparation (development and repairs) of the cars should be done in the box provided. If your car is parked in the paddocks, you must use a sheet of plastic or an oil drip tray under the racing car and trucks (carworkshop) to protect the ground against oil pollution.

For every remaining oil stain a penalty of €150 is invoiced by the circuit management to the team.

Activities of the day and information to access the track

9h00 : Opening of the track
