## 10. Regulations

- Regulations of the Meeting and the Series – [See website](#)
- Penalties applied by the Race Director – [See website](#)

## 11. Noise Regulations

Whatever the car, drivers must meet the noise standards set by the circuit.

**The maximum sound level permitted is mentioned for each race in the timetable of the meeting.**

This is the maximum sound level per car, on the track (dynamic control), measured at 15m from the centreline of the track.

If the noise limit is not respected, the car is stopped and a static control is carried out. However, should it be observed that the car exceeds on three consecutive occasions the maximum permitted during the dynamic control, it will be excluded from the meeting.

## 12. Radio Communication Authorisation

*Official communication from the Belgian Institute for Postal services and Telecommunications (BIPT)*

Every user of radio communication equipment is obliged to be in possession of the authorization title to use his equipment on the circuit of Spa-Francorchamps during the meeting of the SuperSPA.

Controls will be carried out by the BIPT at Spa-Francorchamps and, in the event of non-compliance, may result in legal proceedings and seizure of radio equipment.

It is therefore imperative to apply for the required permits [via the BIPT website](#).

Read also: <https://www.bipt.be/consumers/events>

BIPT also points out that the equipment used must comply with the regulations. Some companies would provide non-compliant equipment. One of the sine qua non conditions for a material to comply is that it bears the CE marking.

Pay attention, the "CE" marking should not be confused with the label "China Export ». Any non-compliant equipment will be seized by BIPT.

## 13. Oil Pollution Prevention

*Official communication from the management of the Spa-Francorchamps circuit.*

Every team must use a sheet of plastic or an oil drip tray under the racing car to protect the ground against oil pollution. If the soil is oil stained, please use oil absorbent granules to clean before leaving the circuit. For every remaining oil stain a penalty of 250 EUR is invoiced by the circuit management to the team.

F1 garages: please avoid stains, scratches and deterioration in the floor and walls.
